

Agenda – Tuesday, June 25

8:15 AM–9:05 AM	Introduction to Identity - Part 1	Auth0 Masterclass - Identity Beyond Individuals1	OAuth 2.0 Master Class - Part 1	Optiv Presents: Zero Trust and Identity-Defined Security	ProofID Masterclass
9:15 AM–10:05 AM	OAuth 2.0 Master Class - Part 2	Introduction to Identity - Part 2	KPMG Presents: API Integration with OAuth and Traditional Web Session Management	PlainID Masterclass: Data Access Controls for Business Owners	Radiant Logic Masterclass: Thriving in a Hybrid World
10:30 AM–11:20 AM	Google Presents: Democratizing phishing-resistant FIDO technology	Modern identity for developers 101	OAuth 2.0 Master Class - Part 3	Radiant Logic Masterclass: Acting on Digital Transformation	SecureAuth Masterclass: What passwordless technology can learn from American Prohibition
11:30 AM–12:20 PM	Google Presents: Enabling BeyondCorp in your organization today	Keeping up with the Kantarians	An Introduction to Mobile Identity	Transmit Security Masterclass (i)	SecureAuth Masterclass (ii)
12:30 PM–1:30 PM	LUNCH				
1:30 PM–1:55 PM	KPMG Presents: Consent as a new currency	US Army: The Secrets of a Successful ABAC Deployment	Navigating NIST SP-800-63-3 thanks to practical xAL cheat sheets	50 Billion Identities: The Future of Humans, Corporations, Smart Things	Google Presents: Adding identity in your app for customers, partners, things
2:05 PM–2:30 PM	The Relationship Lifecycle of Things	Five Things CISOs Must Know about Identity	The Future of Session Management	Google Presents: Unifying identity, access, and device management	The Intersection of Distributed Ledger and Identity
2:40 PM–3:05 PM	Managing Self-Sovereign Identities (a Relying Party perspective)	Policy-enabling your services: using elastic dynamic authorization to control access to your APIs, microservices and data	As the World Turns: Real-World Identity Relationships Driving Data Decisioning	Transactional Authorization	SecureAuth Presents: Addressing the business impacts of identity sprawl with adaptive authentication
3:15 PM–3:40 PM	Client Defined Key binding	Throwing away the Clipboard: Digital Identity & Blockchain for Healthcare	Zero Trust - Beyond the Hype	ProofID Presents	SecureAuth Presents: The American Red Cross Experience
4:00 PM–4:25 PM	My Phone is my Password	The Legal Rules Governing Identity: Current Law and Coming Legislation	Federating FIDO through a Blockchain	Digital Identity in Healthcare	FastFed – A new standard to make SSO easy
4:35 PM–5:00 PM	Authentication & Authorization in a micro services world	Centralized Passwords Are a Hacker's Dream.	SSO: Self-sovereign OpenID Connect - a ToDo list	Personal Data as the Foundation of Privacy	CIBA - Pay with your phone
5:10 PM–5:35 PM	Wells Fargo's Journey to a Flexible and Nimble Authentication Experience	Going beyond the basics: an advanced Privileged User Management (PUM) program.	KPMG Presents: Triggering Identity Events for Cyber Defense	Sailpoint Presents: Walmart Addresses Compliance & Security with IGA	Zero-knowledge proofs - Privacy-preserving authentication
6:00 PM–8:00 PM	WELCOME RECEPTION				
7:30 PM–9:00 PM	SPEAKER RECEPTION				

Agenda – Wednesday, June 26

7:00 AM–8:15 AM	BREAKFAST					
8:30 AM–9:30 AM	OPENING KEYNOTE					
9:00 AM – 9:30 AM	GUEST KEYNOTE					
9:30 AM–10:00 AM	NEXT-GENERATION IDM: MANAGING IDENTITIES FOR PEOPLE - KEYNOTE					
10:00 AM–10:30 PM	BUILDING IDENTITY PROFESSIONALS - KEYNOTE					
11:00 AM–11:25 PM	A Modern Architecture for Customer Identity Services	The new privacy landscape or: How I learned to stop worrying and love privacy	Building identity for an open perimeter	Use of standards and open source in provincial identity solutions	Ping Identity Presents (i)	PlainID Presents: The Revolution of Policy Based Access Control
11:35 AM–12:00 PM	Bring Your Own Identity: A Skeptical look at Social Login and Single SignOn	Saviyant Presents: Privileged Identity Governance, the convergence of IGA and PAM	Customer Identity at the IRS – Bringing Innovation to the Taxpayer Experience	Mobile Enterprises: Strategically Addressing Threats While Managing Risk	Evolving Authorization in the Enterprise	Ping Identity Presents (ii)
12:00 PM–2:00 PM	LUNCH & EXPO					
12:10PM –12:35 PM	Transmit Security Presents (i)	Capital One Presents: Moving from account-based to identity-based customer service				
2:00PM –2:50 PM	IDMWorks Presents: How To Design An IAM Assessment - Blueprint and Roadmap	Deploy OpenID Connect and OAuth 2.0 with a Reverse Proxy Architecture	Entrepreneurs, Data, and Privacy: A Race to the Top	Microsoft Masterclass (i)	Optiv Presents: Customer Identities and Data	Ping Identity Masterclass (i)
3:00 PM–3:50 PM	Understanding the needs of Marginalized Communities When Building Identity Systems	IDMWorks Presents: How To Design A CIAM Assessment - Blueprint and Roadmap	Identity and Distributed Ledger: Today and Tomorrow	Microsoft Masterclass (ii).	Optiv Presents: Digital Transformation from an Identity and Data Perspective	Ping Identity Masterclass (ii)
4:25 PM–4:50 PM	IDMWorks Presents: Communicating Business Value - Justify your IAM Programs To Senior Management	Is your 2FA broken?	The Most Forgotten Thing in Identity Management	Microsoft Presents (i)	Optiv Presents: IAM Program - Don't Talk About It, Be About It	Radiant Logic Presents: "Go right to... Ludicrous Speed:" Transforming Identity at Thomson
5:00 PM–5:25 PM	IDMWorks Presents: IAM to the Power of n	Cases of Stolen Identity	Microsoft Presents (ii)	Optiv Presents: The Data Story	The State of FIDO	Radiant Logic Presents: Getting to a Single Identity
5:35 PM–6:00 PM	IDMWorks Presents: How Robotic Process Automation Fits Into Your IGA & IAM Program	Behavioral Analytics for Identity Compromise Detection in Real Time	Optiv Presents: Securing your Keys to the Kingdom within DevOps cycle	Microsoft Presents (iii)	Netflix's Journey with WebAuthn	Radiant Logic Presents (iii)

Agenda – Thursday, June 27

7:00 AM–8:15 AM	BREAKFAST					
8:30 AM–9:00 AM	DIGITAL IDENTITY FOR THE PEOPLE					
9:00 AM–9:30 AM	STANDARDS: THE BEDROCK OF IDENTITY					
9:30AM–10:00 AM	KEYNOTE ADDRESS					
10:30 AM–11:20 AM	What's Old is New Again. Can Identity Centric Security Finally Make Zero Trust a Reality?	Savyint Presents: Securing Privileged Access to Cloud Infrastructure and SaaS at Enterprise Scale	KPMG Presents: WAM Modernization - Migrate to Automation and Self-Service	IDMWorks Masterclass: Designing For Cloud Security	A Protected Digital Identity for the Healthcare Sector	Omada Masterclass
11:30 AM–12:20 PM	Insider Threats: When Privacy, Security and Identity Management Collide	Capital One Masterclass: Creating Customer First Authentication	Sailpoint Masterclass: What's AI got to do, got to do with it?	Microsoft Masterclass (iii)	Radiant Logic Masterclass: Implementing the Future of IDM	The Identity Architecture Panel
12:30 PM–2:00 PM	LUNCH & EXPO					
2:00PM –2:25 PM	Access management for SAML enabled vendor applications	Continuous Access Architecture	Blurring the boundaries between CIAM and IAM	Beyond AuthN and Authz: Cloud IAM ready applications architectures	Ping Identity Presents (iii)	Transmit Security Presents (ii)
2:35 PM–3:00 PM	Identities for Everything	Securing Web APIs from JavaScript/SPA Applications	Identity Verification - What Happens Before Authentication	Open Banking Around the World	CIAM and IRM, the reality behind the acronyms	Ping Identity Presents (iv)
3:10 PM–3:35 PM	Privileged Access Management - Getting started using open source and community edition software	Delivering a Trusted Digital Identity System	PSD2, SCA, WTF?	Security patterns for keeping secrets in the browser	The Development of a 5G IAM Architecture	Ping Identity Presents (v)
3:45 PM–4:10 PM	PSD2, Open Banking and Technical Interoperability	Half Life: Embracing the natural decay of everything, and how this informs our Identity systems	Frictionless Identity Verification	Developer Enablement with Centralized Access Management	BYOIDaaS: Automating IAM Infrastructure & Operations	Ping Identity Presents (vi)
4:25 PM–4:50 PM	Securing the Nation's most Sensitive Assets	The Developer's Guide to Policy-Driven Auth'z (or: how to make the right decision 100% of the time)	Understanding Identity Trust Anchors	So You Think You Can Two Factor	The need for shared device lifecycle assurance	The Role and Remit of the Financial Data Exchange
5:00 PM–5:25 PM	Modlishka – Is a Mantis Eating 2FA's Lunch?	Harness Your Identity Analytics to Deliver Contextual Authentication	Why Governments are still important even in a Self-Sovereign context	Automated testing of your IAM platform	IAM of Things. Is that even a thing?	Open Banking Explained
5:35 PM–6:00 PM	Surviving API Security in a Microservices World	Envisioning Authentication Beyond FIDO	Omada Presents	ForgeRock Presents	Developing World Identity	
7:30 PM–10:00 PM	THE IDENTIVERSE PARTY!					

Agenda – Friday, June 28

7:00 AM–8:30 AM BREAKFAST					
8:30 AM–9:20 AM	Modernizing the Government Experience with Smart Identity Solutions	ForgeRock Masterclass	An Interoperable Personal Data Receipt Ecosystem in Practice	Ping Identity Masterclass	MFA for Real - reports from the field
8:45 AM–9:10 AM	How to Train an Identity Engineer: A First-Hand Account of Becoming an Identity Engineer on the Job				
9:20 AM–9:45 AM	The Past, Present, And Future of Enterprise Identity	Auth0 Presents(i)			
9:30 AM–10:20 AM	Cloud Native Customer Identity and Access Management to meet a changing business, security, and priv	Finally Something Better Than SMS OTP	Scale Permissions Management with Attribute-based Access Control	Adventures in Self-Sovereign Identity: From Hyperledger Indy to W3C Verifiable Credentials	
9:55 AM –10:20 AM	Moving Day! Planning and Executing Your Migration to a New Identity & Access Management Platform	Auth0 Presents(ii)			
10:30 AM–10:55 AM	Sit Down, Shut Up, and Listen – Why Active Listening Is the Most Important Skill in Your Tool Kit	Masterclass on DID Registration and Resolution	Auth0 Masterclass: Identity and the Yellow Brick Road - The Last Few Steps Are Always the Hardest	Will Mobile IDs spur a revolution in customer service interactions?	Transmit Security Masterclass
11:05 PM–11:30 AM	How to become an Identity Jedi				
12:00 PM–1:30 PM	A CONVERSATION WITH STEVE WOZNIAK
